PROTECTING OUR PLANET

Our composite decking boards are made from recycled plastic and wood fibre, with no need for chemical based treatments like oiling, staining or painting, they really do help protect our planet.

The mark of
responsible forestry

The wood fibres that are used to manufacture the decking boards, joists, corner edging strips, fascia boards and starter boards are all 100% FSC® certified, guaranteeing that the timber used is harvested from responsibly managed forests. By purchasing a product with such certification, you are supporting sustainable forest management worldwide.

ECO-FRIENDLY DECKING

Our composite boards look like wood, however they offer greater ecological sustainability and longevity when compared to standard timber boards.

MADE FROM SUSTAINABLE MATERIALS

Each 3.6m board contains 3kg of recycled plastic & 6kg of FSC® certified wood fibre.

RECYCLING PLASTIC BOTTLES

Every 1kg of recycled plastic is equal to 25 1L bottles. Each 3.6m board contains 75 recycled plastic bottles.

REDUCES DEFORESTATION

Our composite decking boards use less timber thus decreasing the need to cut down trees.

AVOIDING THE USE OF LANDFILL

Reusing materials like plastic bottles reduces waste going into landfill.

RECYCLABLE BOARDS

All Allur products can be recycled at local recycling centres.

HELPS REDUCE EMISSIONS

By using sustainable materials our boards help reduce carbon-dioxide emissions.

WHY CHOOSE COMPOSITE?

Our composite decking boards provide a long lasting performance that timber can't match. Produced using sustainable materials our boards are resistant to moisture, mildew and warping, and are available in a wide range of pretreated colour options to suit your style.

CHARCOAL

Stylish and hardwearing, our Charcoal decking boards have been designed to give your outdoor setting extra personality and character with minimal maintenance.

SILVER GREY

Our contemporary Silver Grey decking boards will instantly modernise your outdoor environment, providing outstanding quality and long lasting performance.

"First time working with this product but I rate it highly!"

**SHARE
YOUR
HAPPY
OUTDOORS**

We love to see your decking installations on Instagram:
[@alluroutdoor](#) [#MyAllurDecking](#)

"We are loving our new outdoor living area. The decking has transformed the garden!"

"The boards were easy to cut & screw together, I liked the colour matching screws for the fascia boards, they were almost invisible."

GRAPHITE

Our Graphite decking boards provide a stunning addition to any garden, this strong and attractive shade helps create the perfect backdrop you can enjoy time after time.

SAGE

The beautiful earthy hues of our Sage decking boards bring an alluring rustic character to your outdoor area, that is strong and reliable with little upkeep required.

GUNMETAL

The perfect enhancement to any outdoor space our Gunmetal decking boards deliver effortless style in abundance, backed up by quality and durability you can rely on.

"It was fantastic, it was easy to understand and all materials from screws to the decking itself was great."

installations on Instagram:
[@alluroutdoor](#) [#MyAllurDecking](#)

"The fixing system was easy to use,
yet sturdy once installed. The boards
seem sturdy, the instructions that came
with the decking were easy to follow"

"The customers were over the moon with
the work/decking."

CHOCOLATE

The dark rich tones of our Chocolate decking boards deliver an eye-catching yet sophisticated appearance for the ideal mix of durability and charm.

CARAMEL

Our timeless Caramel composite decking boards combine traditional wood tones with durable long lasting performance that timber cannot match.

ACCESSORIES

All of our composite decking boards are backed up with an extensive range of colour matching accessories to help you complete your project.

ACCESSORIES EXPLAINED

Get to know our extensive range of accessories and the roles they play in helping you to complete your project.

JOISTS: Used to form your decking sub frame.

STARTER CLIPS: Fitted to the intersection of each joist.

PLASTIC T CLIPS: Used to secure each board in place.

COLOUR MATCHING SCREWS: Offers a sleek finishing touch.

STARTER BOARDS: Used to complete the front edge of your deck.

CORNER EDGING STRIPS: Used as a neat finish to the outside edge of your deck.

FASCIA BOARDS: Used on front facing areas such as steps.

BALUSTRADE KITS

Designed to perfectly compliment your Allur decking boards, posts and rails help create a more defined area around your decking for a beautiful way to landscape your garden no matter what size you are working with. All posts, rails and spindles are easy to fit and universal, and as with Allur boards are resistant to moisture, mildew, and warping. They are currently available in two of our most popular pre-treated colour options, Gunmetal and Caramel.

Choosing decking balustrades and rails will ensure that your decking area is safe so that there will be less chance of accidents, particularly if your decked space is raised higher than the rest of your garden.

Each Allur composite decking Balustrade Kit consists of two posts, two railings (one handrail and one bottom rail) and twelve spindles, complete with all fixtures and fittings required.

Please note that decking boards may experience a level of weathering caused by UV rays, which may result in a slight lightening of the colour 3 to 6 months after installation. You may also notice a slight colour difference between Allur decking boards and accessories. Note that once the weathering process has taken place; this colour lightening and difference will diminish.
